

# Rhino Roofing

Rhino is one of the most recognised manufacturers of shelters for commercial, industrial and housing establishments in Sri Lanka. Rhino offers quality crafted and reliable roofing and allied products that comes with a trusted warranty.

CCC was retained to conduct a comprehensive GHG Assessment for Rhino Roofing Products Ltd to assess the emissions arising from its organisational operations. This GHG Assessment was based on the WBCSD/WRI GHG Protocol and ISO 14064-1 Standard, which are also compliant with the Carbon Disclosure Project and The CarbonNeutral Protocol. Following completion of the assessment and the independent verification conducted by SFG, Rhino Roofing was awarded the ISO 14064-1 Certification.
