

Lalan Rubbers

CCC has been retained to conduct Comprehensive Greenhouse Gas Assessments for 2 selected business entities in order to measure their Operational Carbon Footprints for all applicable Category 1-5 GHG emissions sources. These assessments are conducted in accordance with the GHG Protocol and ISO 14064-1 Standard.

In addition to the above, several Product Carbon Footprint Assessments were conducted for Lalan Rubbers, which included a detailed evaluation of the total GHG emissions from extraction of raw materials to dispatch from the manufacture gate of the selected products. These comprehensive assessments followed the ISO 14067:2018 Product Life Cycle Accounting and Reporting Standard and PAS 2050:2011 Standard.
